Our **flagship crypto arbitrage bot** leverages advanced AI algorithms to identify and execute profitable opportunities across both decentralized exchanges (DEXs) and centralized exchanges (CEXs). By scanning on-chain data in real time, the system pinpoints price discrepancies and automates trades with precision and speed.

This allows users to:

- Capture arbitrage opportunities instantly that human traders would miss.
- Reduce risk by relying on data-driven AI execution rather than emotional decision-making.
- Maximize efficiency with continuous 24/7 market monitoring across multiple exchanges.

⚡ In short, the bot bridges DEX and CEX ecosystems, bringing institutional-grade arbitrage strategies directly on-chain in a simple, automated way.

Please ensure that the exact amount you enter is the same amount you deposit, and that you use the specific cryptocurrency you selected during the process. This helps prevent any potential loss of funds.

Bitcoin Deposit Recommendation

For users opting to deposit via Bitcoin, we recommend adding an additional \$5 to your intended deposit amount to account for potential market fluctuations and volatility within the BTC network.

Example

If Mr. A intends to deposit \$1,000 in BTC, it is advisable to deposit \$1,005 in BTC to ensure smooth processing and avoid delays or underpayment issues.

Our deposit system is fully automated, and in most cases, deposits are reflected in your account within one hour.

However, during periods of high network congestion on the blockchain, processing times may be extended. In all cases, we guarantee that deposits will be successfully processed within 24 hours.

LEVEL UNLOCKING CRITERIA

The Uni-Level Commission is the core of the team-building structure.

Unlocking Criteria per Level

\$100 in Personal Volume

\$100 in Cumulative Group Volume

Each level is unlocked sequentially based on the member meeting both conditions for that specific level.

Note: These are cumulative requirements, i.e. for Level 14, the member must have at least \$1,400 in personal volume and \$1,400 in group volume.

Level	Personal Volume	Cumulative Group Volume	Unlock Condition
Level 1	\$100	\$100	Both criteria must be met

VOLUME DISTRIBUTION STRATEGY

To ensure fairness, sustainability, and long-term stability of the **Zionix Global** compensation system, we've implemented a structured volume distribution model across 14 levels.

This approach is designed to:

- Prevent volume inflation where uplines benefit excessively from deep-level downline deposits.
- Ensure uplines earn volume proportionate to their true team-building efforts.
- Protect the company from loopholes that could lead to rapid, unearned rank advancements.

zionixglobal.ai

HOW VOLUME IS DISTRIBUTED

Level 1	100%
Level 2	50%
Level 3	30%
Level 4	30%
Level 5	2.5%
Level 6	20%
Level 7	20%
Level 8	1.5%
Level 9	10%
Level 10	10%
Level 11	5%
Level 12	5%
Level 13	5%
Level 14	5%

When your referral makes a deposit (e.g. \$10,000), the volume that counts towards each upline's rank qualification reduces progressively by level:

Example: If a member on Level 14 deposits \$10,000:

The Level 1 upline gets full credit: \$10,000

The Level 2 upline gets: \$5,000

The Level 3 upline gets: \$3,000

The Level 4 upline gets: \$3,000

...

The Level 14 upline (the topmost upline in that chain) gets: \$500
