

Cryptocurrency-Based Income: Why Choose The Digital Space?

There are a lot of things in the marketplace right now. If you are looking to supplement or replace your current income, why look to a cryptocurrency based project?

The Digital Economy Revolution

A Digital economy is quickly replacing fiat currency. We can see that simply from the mainstream adoption that services and traditional financial institutions are rapidly implementing.

Adapt or Get Left Behind

We either adapt or get left behind, and the reality is, the majority of people on planet Earth pretend this isn't happening, that cryptocurrency could never replace or exceed fiat currency, so here's your chance to get ahead of it before you have no choice but to learn how it works.

A Remarkable Discovery

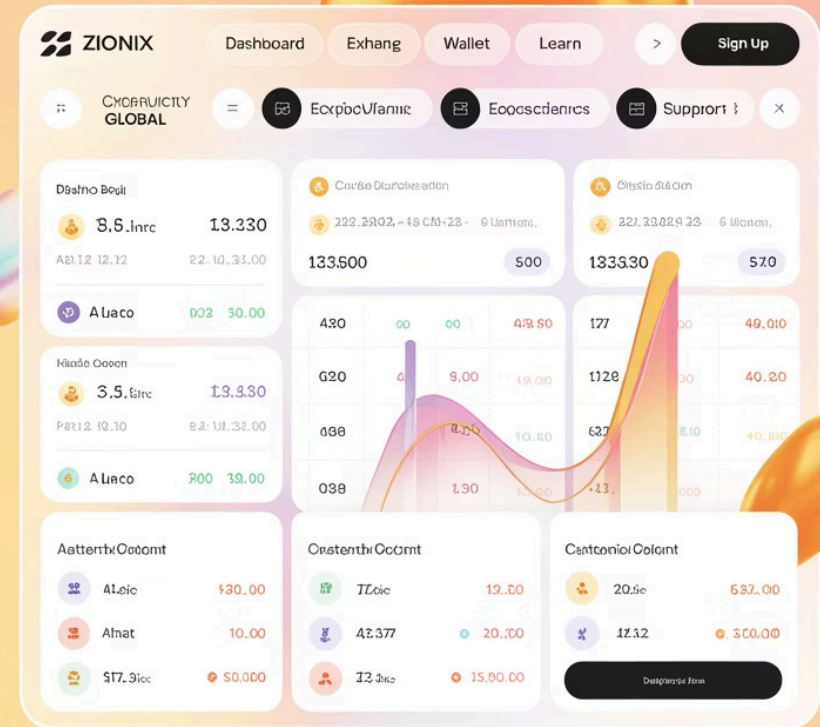

U.S. Based Registered Company

We've recently discovered a U.S. Based registered Company which operates globally due to the digital nature of business.

Incredible Trade Sequence Formula

They provide an incredible trade sequence formula that is registering high on the radar of top level crypto traders and investors alike.

Introducing: Zionix Global

Company Leadership

Headed by CEO **Jenna Zwagil**, Zater Capital went public with a soft launch in May 2025 and is currently transitioning into Zionix Global. Before going public this technology has been tested and used for years, and now begins the first time this specific technology is available to everyone.

Perfect Timing

- ✔ If you are just hearing about this now, you are in a very good position. We are 1st to this opportunity, it's brand new, and is proving itself to be an ideal way to leverage AI Technology for wealth creation.

The Power of Digital Innovation

AI Technology

Blockchain

Repeated Profit

Why is it an ideal way to scale your funds? Because Digital innovation has given anyone who wants it, the ability to leverage AI, combined with the blockchain, and benefit from repeated, non-stop, self-operating profits generated through systems that were never possible just a few years ago.

What is Zionix?

Zionix Global is a Cryptocurrency AI Bot Trading Licensing platform, delivering self-operating trading solutions.

Self-operating being the keyword here...

They provide digital asset management and trading education, integrated with Blockchain technology. This marks an incredible formula for self sustainable financial growth.

Focus on Trading & Education

Cryptocurrency Trading

Zionix focuses on cryptocurrency trading and wealth education.

Optional Learning

Access education, where you can also learn trading as a real world skill, if that is something that interests you, however, it is not necessary to **begin earning from day 1** with no knowledge of trading whatsoever.

What Sets Zionix Apart

1 Proven Software

This software is not new, it has been proven and tested for years, before being made known to the public.

2 Capital Always Available

Your capital is ALWAYS available - it is not locked. Therefore, funds you may have sitting in a wallet right now making very little, can be put to work, and still be available at any time after the first 30 days.

3 Daily Earnings

Earnings are generated 7 days per week, and you can view blockchain transactions coming through in real-time.

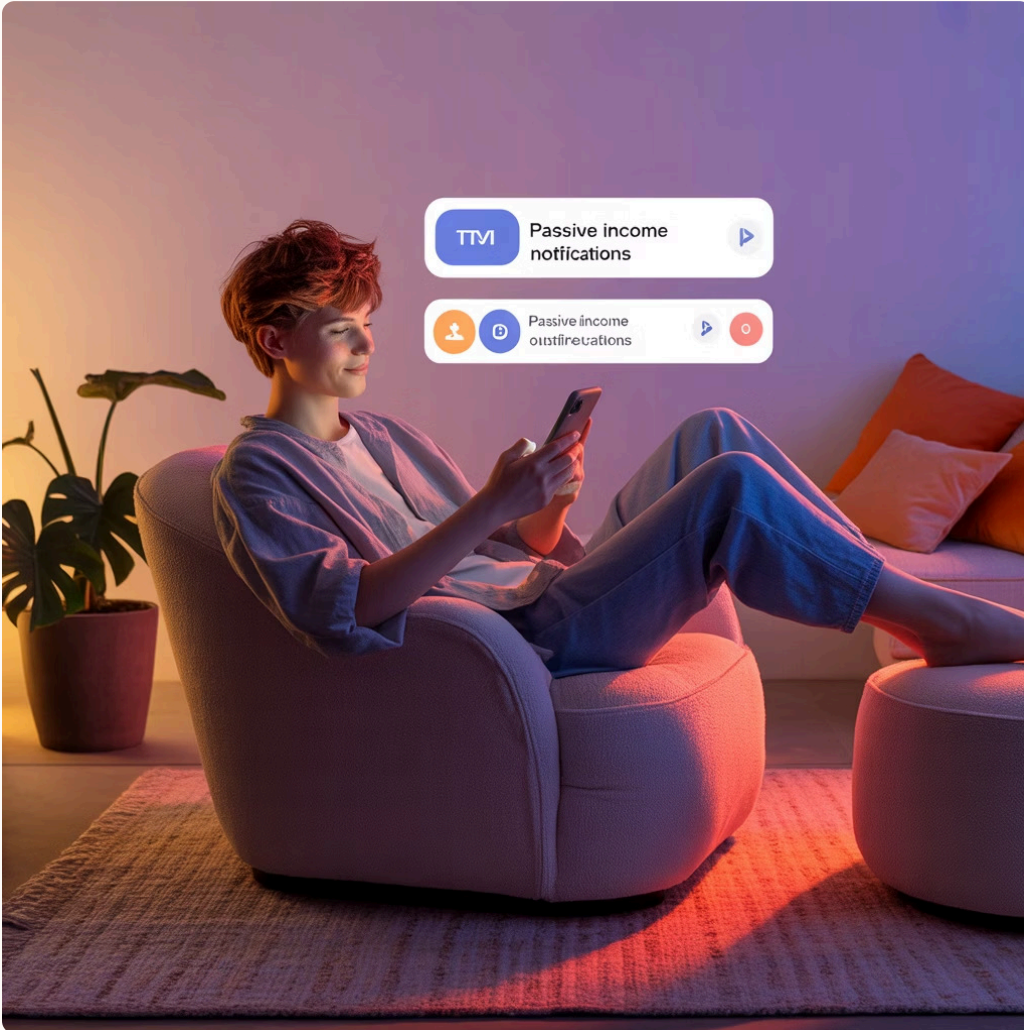

4 Multiple Daily Withdrawals

Earnings are generated all day long, and can be withdrawn multiple X's per day (3% withdrawal fee - one of the smart ways the company stays sustainable.)

5 Blockchain Transparency

Real-time Blockchain transaction transparency shows legitimacy and can be viewed at anytime. You will rarely, if at all, find this available in other platforms.

Set It and Check It

There's nothing to do but set this up and login from time to time.

Logging in is something you'll find yourself doing regularly, because it is quite addicting to watch your earnings as they are generated in real-time.

What makes Zionix different from other Trading bots?

Trade smarter.
Trade Zionix.

A Comprehensive Ecosystem

Trading Bot with Licensing

Licensing with transparent real-time trades through On-Chain Trade API.

Transactions in API tab are related to your personal bot only.

Each user has their own individual bot that executes trades on their behalf based on market data and AI analysis.

Comprehensive Ecosystem

Zionix doesn't *just* offer a trading bot with licensing. They offer a comprehensive ecosystem where you can also learn how to trade through their academy (optional), as well as earn passively through automation and growth.

Optional Learning

Take advantage of the classes to learn how to trade, or not.

There's nothing for you to do, unless you WANT to learn how to trade.

Advanced Trading Technology

The bot trades high probabilities across multiple crypto pairs, with the technology having been used and fine tuned over years of market exposure and performance with rigid risk management.

Security Features

Important to note are the advanced proactive security features:

Asset Protection

Through cold storage and multi signature wallets

24/7 Monitoring

Constant surveillance of system security

Advanced Security

2 Factor Authentication

Privacy Protocol

SSL Encryption provides privacy, authentication, and data integrity.

Legal Compliance

Legal and compliance measures in place with top MLM law firm at their disposal

Is My Capital Safe?

 Many people want to know, is my Capital safe?

As a **disclaimer**, you should always be aware that any investment has risk. Even your job comes with risk.

DISCLAIMER: Trading cryptocurrencies involves a high level of risk and may not be suitable for all individuals. Past performance is not indicative of future results. Any earnings or performance examples are for illustrative purposes only and do not guarantee future outcomes. Users should be aware that market volatility, economic factors, and individual decisions can impact results. Zionix Global does not provide financial or investment advice and does not guarantee any specific earnings or returns. Always do your own research and consult with a licensed financial advisor before engaging in cryptocurrency trading.

The AI Advantage

A main difference with using AI bots to trade on your behalf, is that *a bot executes trades based on it's identification of an optimal trade per it's criteria*, it does this WITHOUT emotion, because it's AI, unlike a human being where emotional trades can be very risky.

Trade Risk Management Features

1

30-Day Capital Lock Protocol

Allows for stabilization over 30 days

2

Dynamic Stop-loss Systems

Protects against sharp downturns by auto-exiting trades

3

Lot Size Adjustments

Automatically scales trade size relative to available capital

4

Smart Capital Allocation

Diversifies trades across multiple pairs and strategies

5

Profit Skimming

Locks in partial profits during market rallies to reduce downside risk

6

Emergency Shutdown Protocol

Suspends trading under extreme volatility or exchange failures

AI Trading Transparency

AI Trading Transparency is a very comforting feature.

Within your back office, you'll see the *On-Chain Trade API* - here is where you can view transactions yourself that are verified on the Blockchain (and track it in real time).

Trading transparency such as this, is a key feature that sets Zionix apart from other Bot trading platforms.

How The System Works

1

Fund Your Account

You fund your account, choose and purchase a Bot trading license (licenses give you 1 year access).

2

Choose License Level

There are 5 license levels. Select and buy the membership license that aligns with your trading goals.

3

Activate Your Bot

Once license is purchase, you'll go to the 'activate bot' page and activate it.

4

Fund Your Bot

Each of the 5 license levels requires a minimum investment. Based on the license you chose, you fund your chosen Bot with at least the minimum that particular Bot requires, there is no maximum.

Annual License Memberships

| License Type | Annual Fee | Daily Return | Minimum Capital |
|------------------|------------|-------------------|-----------------|
| Starter License | \$149 | Up to 1% daily | \$99 |
| Standard License | \$199 | Up to 1.05% daily | \$249 |
| Advanced License | \$249 | Up to 1.1% daily | \$2,499 |
| Elite License | \$299 | Up to 1.25% daily | \$10,499 |
| VIP License | \$549 | Up to 1.5% daily | \$21,499 |

Earnings & Compounding

Earnings are dependent upon market conditions, this is real trading, not guaranteed income.

There is also the ability to **leverage your earned profits** through **compounding** your profits into additional bots and have those earning for you too!

License Membership Benefits

1 Year Access

1 Year access to trading bots

Premium Education

Premium trading Education and Training through Masterclasses

Priority Support

Priority Customer Support

Revenue Sharing

Revenue Sharing Program where you can earn commissions by sharing with others

Coming Soon

Exclusive NFT Bot ownership and marketplace access

Coming Soon

Exclusive trading signals access

How Payments Work

24/7 Operation

Current days of Operation is 24/7. The crypto trading market runs non-stop

Flexible Withdrawals

Withdrawals are 7 days per week (minimum \$10)
- no daily limit on the number of withdrawals

Withdrawal Process

Pending withdrawals: must wait for it to clear before making another withdrawal

Fees & KYC

3% withdrawal fee
Minimal KYC required

Compensation Plan

- Optional Direct Bonus (14 level structure) [License purchases and capital of team and indirect team members]
- Very high earning potential across 14 levels
- Uni-Level Commissions
- Earning potential from repeated AI driven trades
- Differential Leadership Bonuses
- Momentum Bonuses (Rank Levels) - Rewards based on the volume of your entire structure down 14 levels

(To partake in the compensation plan, you need to have purchased a license, and added the minimum amount of capital to that license to earn commissions.)

Easy 4-Step Activation

1

Choose Membership Tier

Choose your membership tier based on your desired ROI

2

Fund & Purchase

Fund your account and purchase your license

3

Activate Bot

Activate your bot

4

Fund Your Bot & Begin Earning

Fund your membership tier with cryptocurrency and **add capital to your Bot** and *begin earning almost immediately*

Real-Time Profits

Once you begin, you are going to see something happen that you don't see in most other companies. You see real-time profits from trades being generated almost **every time** you **refresh the page**. It's addictive!

Put Your Funds to Work

Activate Idle Funds

If your funds are not earning for you by just sitting in your wallet, activate a bot in Zionix and **put your funds to work for you.**

30-Day Capital Access

After 30 days, your capital is available to you and not locked, for instance, if you need it in an emergency.

Important Note

If you remove your initial capital, that bot is closed and no longer trades for you. You can purchase another bot at any time to begin earning again.

Start Small or Go Bold

Starter Option

So why not add a test amount?

If you need to, start small and get a feel for it.

For instance, if you want to test it out, simply begin with a \$149 Starter License, and add the minimum capital of \$99.

The Starter License allows you to begin with a total of \$248.

VIP Option

If you are feeling bold and want to earn upwards of **\$300 or more per day**, you can do what many of us have done, and begin with the **VIP License!**

Questions to Ask Yourself

“

Are you where you want to be financially?

”

“

Are you getting tired of trading time for money?

”

“

How much longer can you really keep doing what you are currently doing?

”

“

Will you have enough to ever be able to retire comfortably?

”

“

Can you afford to keep sitting on the sidelines?

”

Take Action Now

If the answer to any of these questions is *no*, then could it be time to take a chance and explore something which could give you freedom and peace of mind?

If the answer is **yes**, then get back to the person introduced you to this presentation and begin your income journey, because digital earning isn't the future, **it's happening now.**
